

Havlik GEAR
Div. of Havlik International Machinery Inc.

Havlik Gear Inc. offers start to finish service on large and small gearing projects such as customer drawings and specs, design services, and gear cutting or machining. Visit www.havlikgear.com for more information.

"Today's customers demand high quality custom gearing at competitive prices and lead times. We recognize the Niles ZP40 as the machine which gives us maximum flexibility while maintaining the highest level of quality and efficiency possible. Our ability to grind and inspect large internal and external gears has definitely given us the ability to enter new markets such as Wind Energy, Marine, Rail, and Defense. The machine is well built, user friendly, consistent and reliable. Niles offers very prompt service and support. We recommend Niles Machines to any gear shop."
